

CURRENT INDUSTRIAL REPORTS

Titanium Ingot, Mill Products, and Castings

U.S. Department of Commerce
BUREAU OF THE CENSUS
BUREAU OF INDUSTRIAL ECONOMICS

SEPTEMBER AND OCTOBER 1982

ITA-991(82)-9 & 10
Issued January 1983

The total production of titanium ingot for October was 3.6 million pounds. This represented a 7-percent increase from the September total of 3.4 million pounds. Consumption of titanium ingot increased by 1 percent in October to 3.5 million pounds from 3.4 million pounds in September. Net shipments of titanium mill products decreased by 19 percent to 2.4 million

pounds in October from 3.0 million pounds in September. Total shipments of titanium castings for October amounted to 43 thousand pounds.

A description of the survey methodology and related information may be found in the January 1982 report for this series, ITA-991(82)-1, issued June 1982.

Table 1. NET SHIPMENTS OF TITANIUM MILL PRODUCTS

(Thousands of pounds)

Product	October 1982	September 1982	October 1981
Total ¹	2,412	2,994	4,322
Sheet and strip.....	(²)	(²)	(²)
Plate.....	1,176	1,383	2,460
Forging and extrusion billet.....	329	359	522
Rod and bar.....	25	76	60
Fastener stock and wire.....			
Extrusion.....	952	1,253	1,760
Pipe and tubing.....			
Other.....			

¹Net shipments, total, is the sum of mill product shipments plus mill products consumed in the manufacture of fabricated products, less total receipts. Net shipments for each mill product category also includes the consumption of mill products in that category in the manufacture of other mill products. Detail does not add to the total because of this difference in definition.

²Data for sheet and strip, plate, extrusion (other than tubing), pipe and tubing, and other have been combined to avoid disclosing individual company data.

Table 2. TITANIUM INGOT, MILL PRODUCTS, AND CASTINGS: 1982 AND 1981

(Thousands of pounds)

Month and year	Ingot					Mill products			Castings	
	Production	Consumption	Shipments	Receipts	Ending inventories	Production	Receipts	Net shipments ¹	Production	Shipments

(NA) Not available. (2) Less than one-half of 1 percent.

¹For a comparison of Standard Industrial Classification (SIC) codes, export (Schedule B) codes, and import (TSUSA) codes, please refer to the January report for this series, ITA 991(82)-1, issued June 1982.²Source: Bureau of the Census report DM 546, U.S. Exports--Schedule B--Commodity by Country.³These values were derived by use of adjustment factors to exclude freight, insurance, and other charges incurred in moving goods to the port of export. This adjustment is made to convert the values to an approximation of the producers' value of exported goods. Current adjustment factors are based on data for 1980 which are published in Origin of Exports of Manufactured Products, HSO(S)-6, appendix B. Comparable adjustment factors for earlier years are based on similar factors developed for 1971 and 1972. The current adjustment factor for this report is 0.9731.⁴Source: Bureau of the Census report IN 145-X, U.S. Imports for Consumption and General Imports.⁵The value includes a 1% cost, insurance, and freight at the first port of entry in the United States plus U.S. import duties and other charges to the import point.⁶Apparent consumption is derived by subtracting exports from the total of net shipments plus imports.⁷Comparability of output, export, and import classifications for ingot and billet assume that bloom, sheet bar, and slab are reported as ingot or billet in the output codes. Figures for imports of ingot and billet also include powder, crystal, and similar forms which are excluded from the output and export codes.

Make the 1980 census data work for you.

Users' Guide, Part A. Text

Get the Users' Guide, a multi-volume work. The first installment—"Part A. Text"—covers census data subjects; geographic areas; user tapes, maps, and other products; and services available to users.

- **SUBJECTS** The Guide tells how the data were collected and the scope of every subject. It gives you guidance, too, on the limits of the data.
- **AREAS** The Guide explains census geography and helps you locate all the data for your area.
- **PRODUCTS** The Guide helps you choose the products that best fit your needs. It discusses the contents of publications, maps, microfiche, and computer tapes.
- **SERVICES** The Guide describes and gives sources of such services as reference, consultation, training, and computer tape processing.

Watch for other supplements (parts) of the 1980 Users' Guide—including a comprehensive glossary and a table finder.
